“The deteriorating business and capital raising environment noted last quarter has continued to impact many of Safeguard’s companies, with some lagging their operating plans and others experiencing liquidity challenges. While we are continuing to support our companies, we are considering additional actions to either participate in financing transactions that we view as opportunistic and attractive or, to be significantly diluted by those transactions if completed without our participation. We also continue to work with our financial advisor Houlihan Lokey as we evaluate strategic transactions for Safeguard that could yield greater value to our shareholders than an orderly run-off of the portfolio. In all

cases, we remain committed to seeking a path that maximizes shareholder value,” said Eric C. Salzman, Chief Executive Officer.

Many of these factors are beyond our ability to predict or control. Additional Financial Information

Non-GAAP Measures

In discussing financial results and guidance, the Company refers to the measure "corporate expenses" which is not in accordance with Generally Accepted Accounting Principles (GAAP). We use this non-GAAP financial measure internally to make operating and strategic decisions, including evaluating our overall performance and as a factor in determining compensation for certain employees. We have defined corporate expenses as general and administrative costs excluding stock based compensation, severance costs, and non-recurring items and other. Non-recurring items and other includes accruals related to the Company's LTIP plan that will not be paid until reaching a specified threshold within that plan as well as costs incurred for exploring strategic alternatives. We believe presenting this non-GAAP financial measure provides additional information to facilitate comparison of our historical operating costs and their trends and provides additional transparency on how we evaluate our cost structure. We also believe presenting this measure allows investors to view our performance using the same measure that we use in evaluating our performance and trends.
